Since the company's formation in 1982, Tanimura & Antle is dedicated to providing fresh, consistently high-quality produce. That, coupled with innovation, industry-driving new products, and top-of-the-line customer service, has resulted in one of the fastest growing and most successful companies in the history of produce.

Our Mission

To provide our customers with premium products and superior customer service that exceeds their quality and value expectations.

safe produce HANDLING

- Ideal storage temperature is 34°-36°F/90-95% relative humidity. Refrigerate immediately after receiving.
- First in/First out rotation.
- Store in area with good circulation and away from ethylene-producing fruits to avoid russeting, spotting or decay.
- Wash hands with hot soapy water before and after handling fresh produce.
- Refrigerate produce as soon as possible after purchasing. Refrigerate cut or chopped produce within two hours of peeling or cutting. Once cut, leftover produce should be discarded if left at room temperature for more than two hours.
- Wash all vegetables with cool tap water immediately before eating. Don't use soap or detergents. Cut away any bruised or damaged areas before eating.
