

lettuce

ICEBERG

DESCRIPTION:

Iceberg lettuce was developed in the United States at the end of the 19th century. Tanimura

& Antle Iceberg lettuce is springy-firm, with compact heads, crisp texture and a semi-sweet flavor. Leaves should be even medium to dark green, opening to a pale yellow heart. A slightly brown core end is not a sign of old lettuce; it's merely oxidation, nature's way of sealing the harvesting cut.
