

From Seed To Shelf

Our long-lasting commitment to quality and innovation has made Tanimura & Antle an industry leader in growing practices, packing techniques, product development and food safety. Our "seed-to-shelf" value chain aims to provide customers and their consumers with fresh, premium quality product day in and day out.

Planting The Crop

Top-quality seeds are nurtured into seedlings in both the field and at our Natividad Nursery to ensure successful planting and/or transplanting.

1

Farming The Crop

2

For three generations, farming with care, commitment and pride has been the heart and soul of Tanimura & Antle.

Harvesting The Crop

Harvesting at peak quality and maintaining good cold chain management is key to our success.

3

To The Cooler

4

An important final step in ensuring the integrity of our premium quality produce.

On The Road

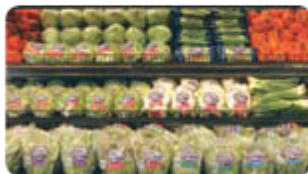

We rely on our partners in distribution to practice the same level of care and commitment to quality.

5

At The Store

Our retail and wholesale partners act as ambassadors of our products, so we work hard to cultivate strong relationships.
